

Indoor Electrical Safety

- ✓ Only use extension cords temporarily.
- ✓ Always plug an appliance directly into a wall outlet.
- ✓ Replace damaged or cracked electrical cords.
- ✓ Use light bulbs that match the recommended wattage.
- ✓ Install faceplates on receptacle outlets and switches.
- ✗ Avoid placing cords across doorways or under carpet.
- ✗ Never overload wall outlets, extension cords, or power strips.
- ✗ Never plug an extension cord into another extension cord.

ELECTRICAL WORK SHOULD ONLY BE PERFORMED BY A LICENSED ELECTRICIAN.
