

# Smoking Fire Safety

**If you choose to smoke, it is safest to smoke outside.**

## PUT IT OUT

- Dispose of cigarettes in the proper receptacle
- Use ashtrays with a wide base
- Pour water on ashes or butts before putting them in the trash

**Never smoke  
in bed.**

**Never smoke around  
medical oxygen.**  
*An oxygen tank can  
ignite even if shut off.*

**Do not smoke after  
taking medication  
that may cause  
drowsiness.**

**Keep smoking  
materials away  
from children.**

**Smoking is consistently a leading known  
cause of home fire deaths in South Carolina.**
